

## EPA PCS\_ICIS ECHO Search

The Permit Compliance System (PCS) and Integrated Compliance Information System (ICIS) databases provide information on companies which have been issued permits to discharge wastewater into rivers.

Utah DWQ's UPDES permit information is currently available in ICIS and includes all Individual UPDES Discharge Permits (Industrial and Municipal) and UPDES General Permits.

All of Utah's UPDES permit information is made available to the public through EPA's Enforcement and Compliance History Online (ECHO). The data on ECHO is refreshed weekly, typically on Saturday. For more information, visit the **ECHO FAQs**:

<https://echo.epa.gov/resources/general-info/echo-faq>

### ECHO Website:

<https://echo.epa.gov>

To search for UPDES Permits in Utah, go to the ECHO Website above and search by Location or Facility Name/ID under the "Quick Search" tab. For advanced searches select "Search Options"

The screenshot shows the ECHO website's "Quick Search" page. The header includes the ECHO logo and the text "Enforcement and Compliance History Online". A navigation menu on the left lists "Quick Search", "Search Options", "Analyze Trends", "Find EPA Cases", "Data Services", "Help", and "News". The "Search Options" link is circled in yellow. The main content area has a "Quick Search" header and a search form with two tabs: "Location" (selected) and "Facility Name/ID". The search form includes a text input field with the placeholder "Enter city, state, and/or zip code" and a "Search" button. Below the search form is a "More Search Options" link. A descriptive paragraph states: "Use EPA's Enforcement and Compliance History Online website to search for facilities in your community to assess their compliance with environmental regulations. You can use ECHO to:". Below this are four bullet points: "Search for Facilities", "Investigate Pollution Sources", "Search for EPA Enforcement Cases", and "Examine and Create Enforcement-Related Maps". A fourth bullet point, "Analyze Trends in Compliance & Enforcement Data", is partially visible. To the right of these bullet points are three icons with links: "Read the Quick Start Guide", "Watch a Video Tutorial", and "Explore the Tool Guide".

### Under Water, select Water Facility Search:

The screenshot shows the "Search Options" page on the ECHO website. The header is "Search Options". The main text reads: "ECHO provides a variety of ways to identify facilities of interest. Search for facilities by media program using the links below or use media-specific tools to conduct additional analyses." Below this text are three columns of links. The first column is titled "Cross Program" and includes: "All Data Facility Search", "Map Any Facilities with Enforcement and Compliance Data", and "Corporate Compliance Screener". The second column is titled "Water" and includes: "Water Facility Search" (highlighted in yellow), "NPDES Program Areas Facility Searches" (with sub-links for "Biosolids", "Biosolids Annual Report", and "Industrial Stormwater"), "Map Water Facilities", "Water Pollutant Loading Tool", and "NPDES DMR Non-Receipt Status Search". The third column is titled "Air" and includes: "Air Facility Search" and "Map Air Facilities". Below the "Air" column are two more sections: "Hazardous Waste" with links for "Hazardous Waste Facility Search" and "Map Hazardous Waste Facilities", and "Drinking Water" with a link for "Drinking Water System Search". A star icon and the text "Popular Feature" are located at the bottom right of the page.

Select 'Water' under search type and 'Utah' for State:

### Search Type

Choose a Search Type: **Water**

Choose a Water Program Area: None Selected
